BOTTLED MAY 2020

A year of marked seasons. After two dry winters, this vintage enjoyed lavish amounts of rainfall, exceeding 300 litres between October and March. The abundant rains in April delayed budding. After a cool May, a rapid flowering developed with an optimal fruit set.

After a slow maturation, the harvest took place from 12 September to 8 October, in a generous harvest in fruit and structure.

An energetic and concentrated Prima, with refined tannins.
