BOTTLED MAY 2022

A wet cycle with well distributed rainfall throughout the year. Bud break was rapid and full after a mild winter. May started with thunderstorms and continued with mild temperatures that allowed early flowering and excellent fruit set. After a hot July, the temperature contrasts between maximum and minimum temperatures increased, which favoured a tranquil ripening until the beginning of the harvest at the end of August.

TASTING

Bright fruitiness on the nose underpinned by attractive floral notes. Vigour, vibrance and fleshiness make for a fine wine with an elegant structure.
